Known Consignor : DfT compliance

QUADRATICA TRAINING

In 2001, the UK Department for Transport (DfT) published a new training syllabus for staff at Known Consignor sites. Our STKC course covers all modules of the Known Consignor syllabus, and is designed to ensure employees of Known Consignors' who have access to known air cargo, meet the requirements of the DfT and understand their roles and responsibilities. Fully DfT accredited, the course provides up to date information, legislation and strategies to address today's increasingly complex security challenges in the aviation industry.

To be compliant with EU 2015 / 1998* – which outlines detailed measures for the implementation of basic aviation security industry standards, Known Consignors are required to undertake more staff checks, training and implement tighter controls. Our STKC course focuses on threat recognition and response, best practices, and the legal/legislative requirements to help staff enhance their skills and knowledge in a wide range of relevant areas and to ensure they pass any checks undertaken.

STKC security training for known consignors

Effective Training, the way you want it

- Revised UK DfT Training Syllabus
- UK DfT compliant course content

How can we help you?

Developed by Quadratica and employing the very latest thinking in Computer Based Training (CBT) technology, STKC is a fully DfT accredited security training course that provides Known Consignors with the most timely information, legislation, strategies to address today's security challenges.

Continuously updated, STKC breaks the traditional styles of security training, reduces costs and allows your staff to complete their training programmes, undertake refresher courses and keep abreast of trends and developments on-line.

- Understand the principles of the Air Cargo Regime
- Stay abreast of international security standards and best practices
- Protect identifiable air cargo from unauthorised interference
- Recognise and respond correctly to prohibited articles, explosives, incendiary devices, etc.
- Develop and implement technical, operational and management skills

Quadratica's hosting platform has proven to be stable and available, even under strenuous use and has delivered tens of thousands of courses over a period of many years with continual positive results.

STKC course overview

Lesson 1 – Introduction to Security:
The meaning of "threat" and the effect it has on aviation security standards

Lesson 2 - Objectives & Organisation of Aviation Security:
A basic understanding of the legal requirements and international, national and local organisation of aviation security, including the role of the DfT

Lesson 3 – Principles of the Air Cargo Regime:
The principles of the Air Cargo Security Regime, how it works in the UK and its relevance to your work

Lesson 4 – Transport Security:
The requirements for the secure transport of a consignment

Lesson 5 – Access Control:
How effective access control is achieved and how identifiable air cargo is to be protected from unauthorised interference

Lesson 6 – Prohibited Items:
The various types of prohibited articles, explosive and incendiary devices and their components, which have been / could be used in the unlawful interference of civil aviation

Lesson 7 – Methods of Concealment:
How to recognise suspicious circumstances and articles or consignments where a prohibited article may have been concealed

Lesson 8 – Responsible Person:
Understanding the duties and obligations of the Responsible Person

Quadratica UK

At Quadratica UK we are continuously looking for ways to provide our customers with the best functionality, in the most economic format. DfT training can be expensive, and the quality of instruction can vary from trainer to trainer. Our online training courses deliver high quality training, every time. Scheduling training for a large work force no longer requires the cost of training rooms or taking staff off the floor. Our courses are available 24 hours a day, 7 days a week, so training can be scheduled around staff availability and convenience.

To keep our clients' training overheads down, we have priced our courses by the unit – if only 2 people require training, our clients only pay for 2 units, whereas a certified instructor will often charge the same amount whether they are training 2 or 20 people.

We provide training managers with the best possible tools to educate their security staff by continually developing ground breaking technologies. Our products are designed with a strong focus on our customers' ever evolving needs and the shifting landscapes of the security industry.
